We worshipped Elizabeth Holmes & Theranos. Turns out she's a fraud

We worshipped Sam Bankman-Fried & FTX. Turns out he's a fraud

We worshipped Elon Musk. Turns out he's a fraud

Can we plz—for the love of God—stop worshipping billionaires & just tax the bejeezus out of them?!

1 So, let me ask you this way: Did you ever
 2 get a diploma on it which said that you had a
 3 Bachelor's of Science in Computational Physics from
 4 Penn?
 5 A. I don't know what exactly -- the exact wording
 6 on the diploma.

7 (UNIVERSITAS PENNSYLVANIENSIS

9 Q. Now, looking at the first two pages of
 10 Exhibit 10, are those the only two diplomas you
 11 received from the University of Pennsylvania?
 12 A. You know, I didn't even look at these things
 13 coming out. So, I guess these are the diplomas from
 14 the University.

15 Q. Do you think you have additional diplomas from
 16 the University of Pennsylvania?

17 A. Okay.

18 Q. Okay.

19 Are you aware of either of these diplomas
 20 granting you a Bachelor of Science in Computational

22 MR. LEDAHL: The documents speak for

I thought Musk was just selfish and lacking in social skills, but it turns out he lied about having a physics degree, was an illegal immigrant, and stole the idea for his first company.

capitolhunters @capitolhunters · Nov 17

Someone has to say it: Elon Musk has lied for 27 years about his credentials. He does not have a BS in Physics, or any technical field. Did not get into a PhD program. Dropped out in 1995 & was illegal. Later, investors quietly arranged a diploma - but not in science. 

Show this thread

Eberhard v. Musk, 2009 - San Mateo County Superior Court, CIV 484400
2. Musk Misrepresents his Degree from the University of Pennsylvania

110. Musk has falsely claimed to have a degree in Physics from the University of Pennsylvania that he obtained in 1995, when in fact he has no such degree and the only degree he holds was obtained later than that. Upon information and belief, Musk's only known undergraduate degree is a Bachelor of Science in Economics, obtained from the University of Pennsylvania in May 1997. Musk's misrepresentations regarding his undergraduate degrees include, but are not limited to the following statements.

111. The above-described August 17, 1999, article on salon.com (see Exhibit 32 above) states that Musk "stayed on another year [at the University of Pennsylvania] to finish a second degree in physics."

112. The above-described April 15, 2003, usatoday.com article (see Exhibit 33 above) states that Musk earned an undergraduate degree in physics from the University of Pennsylvania.

113. The above-described June 2008 profile of Musk on howtoworkups.com (see Exhibit 35 above) states that Musk has degrees in both physics and business from the University of Pennsylvania.

114. The above-described profile and article on the Wired Entrepreneur (see Exhibit 36 above) states that Musk "decided to stay in Pennsylvania for another year [1995-6] to complete a second bachelor's degree in physics."

Musk has even misrepresented his educational background in statements made in formal public filings. In various Securities Registration Statements filed for PayPal with the Securities and Exchange Commission ("SEC"), Musk repeatedly represented himself as having received a B.S. in Physics from the University of Pennsylvania and a B.S. in Economics from the Wharton School of the University of Pennsylvania in 1995. A true and correct copy of SEC Form S-1 filed on September 28, 2001, is attached hereto as Exhibit "37." A true and correct copy of SEC Form S-1/A filed on February 7, 2002, is attached hereto as Exhibit "38." A true and correct copy of SEC Form S-1 filed on June 12, 2002, is attached hereto as Exhibit "39."

Board of Directors

David F. O'Reilly has served as a director since March 2009. Mr. O'Reilly has worked as a managing director at Madison Dearborn Partners since January 2000. Since joining Madison Dearborn in September 1996, Mr. O'Reilly has concentrated on investments in the financial services industry. Prior to joining Madison Dearborn, Mr. O'Reilly was a managing director at Lazard Frères & Co. LLC.

John A. Malloy has served as a director since March 2001. Mr. Malloy served as a director of Confinity, Inc. from June 1999 to March 2008. Mr. Malloy also worked as a partner at the law firm Venrock Fund and by extension as Director in 1996 and as business development for Nasdaq. Mr. Malloy currently serves as a director of the Board of Directors of the Nasdaq Stock Market. In addition, Mr. Malloy received his J.D. from the University of Georgia and his M.B.A. from Mendoza College of Business.

Michael J. Morris has served as a director since August 1999. Mr. Morris has worked as a partner at Sequoia Capital since 1993, and has focused on technology companies and information technology investments.

Steve P. Jobs has served as a director since March 1998. Mr. Jobs founded Pixar Corporation in March 1995, which merged with Lucasfilm Animation in 1996. Mr. Jobs currently serves as a director of Apple Inc., Pixar, and Lucasfilm.

Elon Musk, San Mateo County Superior Court CIV 484400
PayPal Securities Registration Statement, Form S-1, 2002

Mr. Musk succeeded Dr. O'Reilly in 2009 when he became a member of the board of directors, Chairman, CEO and CFO from 1997 to February 2009. Mr. Musk received his B.S. in Physics from the University of Pennsylvania and a M.S. in Economics from The Wharton School of the University of Pennsylvania in 1995.

Our board of directors currently consists of seven members. All directors hold office until their successors have been elected and qualified or until they are removed, disqualify themselves or resign. Should one or more of the directors die or resign, we will divide the term of office of the directors into three classes:

• Class I, whose term will expire at the annual meeting of stockholders to be held in 2003.

• Class II, whose term will expire at the annual meeting of stockholders to be held in 2004.

• Class III, whose term will expire at the annual meeting of stockholders to be held in 2005.
