I want Venom 2 to start off with a peppy song playing while Eddie makes breakfast or something. It should have visual gags such as Venom opening the fridge for him to retrieve eggs while he's at the stove to show how their relationship has developed between the first and second movie and how they really are in

sync and in a mutualistic symbiosis thanks

Here's hoping 2020 is just a redneck on bath salts running down the highway nude in its level of foresight and planning.

Once upon a pre-quarantine time, I was heading home from the bar in the wee hours. I fucked up the drop off address for my Lyft ride and ended up down by the convention center, and then had to walk back up the hill to get home. I stopped on the highway overpass to give my nasty smoker's lungs a break and to indulge in a nice, healthy contemplation of l'appel du vide. Then this guy on a bicycle rolls up, looks at me, and stops. Asks me if I'm thinking about jumping. I laugh semi-convincingly and, instead of trying to explain to a stranger the psychological benefits of a good void stare, assure him I'm just pausing to catch my breath. His response: "Ok, good, because it's going to get so much worse, and you should really stick around to see it."

Fucking hell, my dude. That's probably an exchange I'll remember forever.

Don't want to bother the guy any more with a QRT, so here it is in image form.

Yes she got added a month later in early March instead of 2 weeks later, but this still hurts.

Remember last year when people voted for Lys in CYL4 just because she wasn't in the game yet?

And 2 weeks later she got added in a new heroes banner LMAO we got stuck with brave lys just because people couldn't wait

I feel like the same will happen with Marianne

The screenshot shows a tweet from Michaela Okland (@MichaelaOkla) dated 1d ago. The tweet reads: "Ok so this timing might look sketchy now...". Below the tweet, there is a reply from Michaela Okland (@MichaelaOkla) dated 1d ago, which reads: "On Grimes & Noah. I'm sorry. ❤️". The tweet has 24% battery and was posted at 13:41.

Hi guys,  
 I want to come on here and say that I lied  
 about Noah Centineo and Grimes kissing at  
 Olive Garden. I definitely made that up and  
 didn't see this. I also want people to know that  
 I'm not just releasing this statement because  
 Elon Musk threatened me or something. Elon  
 Musk is a cool human guy and he did not  
 threaten me into releasing this statement.  
 Grimes and Noah are NOT in love and they do  
 not frequent the Newport Beach Olive Garden  
 to make out. Thanks

Michaela

Hey Kelsey!

I know you're a BIG Swift Fan here's something you might like...

My sources tell me that TS10 is Taylor swift's most ethereal album. 13 tracks one song is 7 minutes long. Rumor Has It... That the collaborations are ones many have long awaited and one is someone so unexpected you won't believe it. She and someone have put aside their differences to make the finest track she's ever done before. The love interest in the Music Video for one of the singles is self-indulgent.. some can say it's Swift herself is looking in a mirror.

I GUESS I'LL TREAT MYSELF  
TO \$28.00 WORTH OF T-BELL.

Fox Business contributor: "You want to know how bad inflation is? Yesterday, yes, I had a nice lunch at Taco Bell — cost me about \$28 at Taco Bell for lunch."

Um, how is that even physically possible? (Also, don't think I'll take financial advice from this guy.)

My friend predicted the plot line to The Cursed Child in astonishing detail, just days after the publication of Harry Potter and the Deathly Hallows.

And the next generation were awesome - I want to see James Potter II being a dick like his grandfather but also becoming a genuinely good person, and Albus Severus getting sorted into Slytherin and making friends with Scorpius Malfoy, and their parents being faintly horrified, and Rose being their Hermione! And Teddy Lupin

roasted, is he not werewolf??

ROCKED - IS ne part-werewolf as well as being a Metamorphagus, because if so how can he not be an Auror? And Victoire Weasley - with Bill and Fleur as parents no wonder Teddy's head over heels!

I wasn't trying to be funny, but back in 2014 I did predict the US's COVID response:

Things that are epidemic in the U.S.:

- disdain for worker safety
- medical care postponement for lack of money or sick leave
- CYA syndrome

Yep, said something similar to my therapist about how bad it's going to be in the US, got told to remember there are checks and balances and that it isn't going to get as bad as I fear.

I don't know if this is going to happen or not, but if I were to add anything. I had a dream about Trump getting arrested back in June. I'm assuming if it happens were going to see the #FreeTrump going around and its going to probably be the end of Repubs or something idfk.

Its better to specify Age of Calamity or AoC, as just putting "hyrule warriors" can get people confused thinking about the first game. You'd think that's not possible but when AoC was announced many thought it was a dlc expansion for HW1 so like ... best to specify.
