I hope Epstein made videos

There have been suggestions that Epstein made secret videos of all the men who had sex in his houses and planes. I hope he did and they are all revealed, because they will prove I am not among them. I hereby waive any right of privacy in Epstein videos.

You represented Epstein, Alan Dershowitz. You would know if there were tapes. If you were on a tape w/a minor, I'm sure Epstein would have disposed of that tape at your request since you fought so diligently on a predator's behalf. Now your making excuses for Ghislaine Maxwell.

But that is not good enough for some of my old friends on Martha's Vineyard. For them, it is enough that what I have said about the Constitution might help Trump. So they are shunning me and trying to ban me from their social life on Martha's Vineyard. One of them, an academic at a distinguished university, has told people that he would not attend any dinner or party to which I was invited. He and others have demanded "trigger warnings" so that they can be assured of having "safe spaces" in which they will not encounter me or my ideas. Others have said they will discontinue contributions to organizations that sponsor my talks.
