NEW: Email from Elon to the engineering team:
"Anyone who can actually write software, please report to the 10th floor at 2pm today. Before doing so, please email me a bullet point summary of what your code commits have achieved in the past 6 months" 1/

Pretty obvious that he believes most of the Twitter staff contributes, nothing, and that a handful of core engineers can keep the site running. Only time will see if he's right.
