I hope Epstein made videos

There have been suggestions that Epstein made secret videos of all the men who had sex in his houses and planes. I hope he did and they are all revealed, because they will prove I am not among them. I hereby waive any right of privacy in Epstein videos.

He's only saying that because he's been in the house for years now and he knows every square foot and he knows that there's not a single video.

Of coarse, there's not a *single* video; there's multiple videos lying all over the place.

Dershowitz, a lawyer, is claiming that videos will prove a negative.

He thinks no one but him knows nothing 'bout all that 'lawyer stuff'.

This is what you begin to think when you spend too much time with underage girls.

Which he claims videos will prove he didn't do.
